

matisse[®] 2Day Course

Master The Natural Tooth

Full Monolithic - Full Layering

LISBON

25-26 April

by Marat Awdaljan

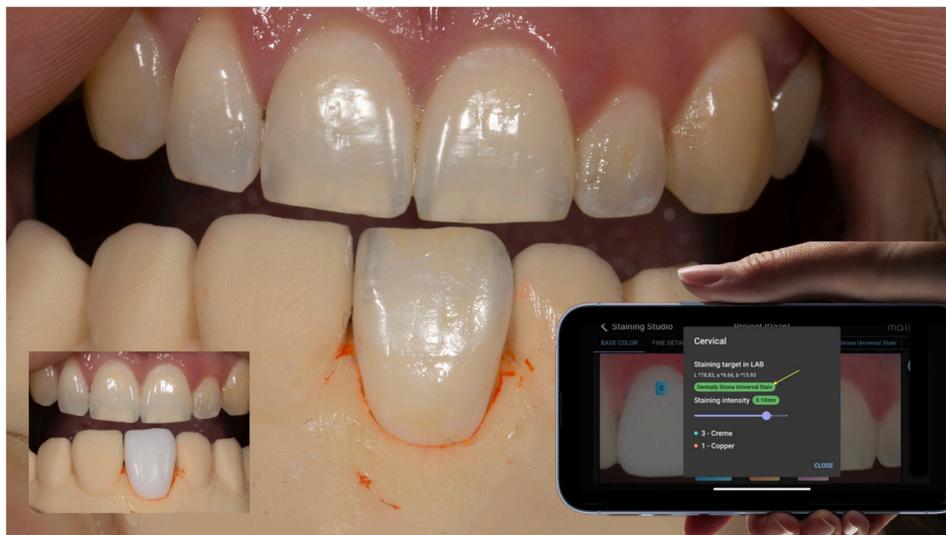

LUÍSFONSECA
DENTAL ARTISTRY

THE MATISSE CHALLENGE

A 2-day course, like you've never experienced before!

Every participant replicates the natural tooth of another participant. We analyze all cases on a large screen and discuss the challenges and solutions.

With the opportunity to learn from 10 different natural teeth, this course offers exceptional value.

“
Everything was just brilliant, the food the people and the course itself provides such a fantastic experience of using the system, it was too good to not invest in it!

-COURSE PARTICIPANT-

WHAT YOU WILL LEARN:

- Full **digital** introduction with Matisse & Optishade
- Analyze natural teeth - understand the **dynamic of light**
- **New layering** approach on ceramics for natural results
- Staining a **full monolithic** crown to match natural tooth
